THE ASTROPHYSICAL JOURNAL SUPPLEMENT

AUTHOR INDEX

VOLUME 140

2002 MAY TO JUNE

AKE, T. B. See MOOS, H. W., et al. Abundances of Deuterium, Oxygen, and Nitrogen in the Local Interstellar Medium: Overview of First Results from the *FUSE* Mission.

ALDCROFT, THOMAS L. A Uniform Analysis of the Lyα Forest at $z = 0$–5. III. *Hubble Space Telescope* Faint Object Spectograph Spectral Atlas. *Jill Bechtold, Adam Dobrzycki, Brenda Wilden, Miwa Morita, Jennifer Scott, Danuta Dobrzycka, Kim-Vy Tran, & Thomas L. Aldcroft.* 140, 143 (2002)

AMMON, H. L. Molecular Structure and Infrared Spectrum of Solid Amino Formate (HCO_2NH_2): Relevance to Interstellar Ices. *R. K. Khanna, M. S. Lowenthal, H. L. Ammon, & M. H. Moore.* 140, 457 (2002)

ANDRE, M. See MOOS, H. W., et al. Abundances of Deuterium, Oxygen, and Nitrogen in the Local Interstellar Medium: Overview of First Results from the *FUSE* Mission.

See KRUK, J. W., et al. Interstellar Deuterium, Nitrogen, and Oxygen toward HZ 43A: Results from the *FUSE* Mission.

See FRIEDMAN, S. D., et al. Deuterium and Oxygen toward Feige 110: Results from the *FUSE* Mission.

See LEMOINE, M., et al. Deuterium Abundance toward G191-B2B: Results from the *FUSE* Mission.

ANDRE, MARTIAL. See SONNEBORN, GEORGE, et al. Interstellar Deuterium, Nitrogen, and Oxygen Abundances toward BD +28°4211: Results from the *FUSE* Mission.

BEACH, J. See MILLER, A., et al. The QMAP and MAT/TOCO Experiments for Measuring Anistropy in the Cosmic Microwave Background.

BECHTOLD, JILL. A Uniform Analysis of the Lyα Forest at $z = 0$–5. III. *Hubble Space Telescope* Faint Object Spectograph Spectral Atlas. *Jill Bechtold, Adam Dobrzycki, Brenda Wilden, Miwa Morita, Jennifer Scott, Danuta Dobrzycka, Kim-Vy Tran, & Thomas L. Aldcroft.* 140, 143 (2002)

BEIERSDORFER, P. Laboratory Measurements and Identification of the Fe XVIII–XXIV L-Shell X-Ray Line Emission. *G. V. Brown, P. Beiersdorfer, D. A. Liedahl, K. Widmann, S. M. Kahn, & E. J. Clothiaux.* 140, 589 (2002)

BERSIER, D. Fundamental Parameters of Cepheids. V. Additional Photometry and Radial Velocity Data for Southern Cepheids. *D. Bersier.* 140, 465 (2002)

BLAIR, W. P. See MOOS, H. W., et al. Abundances of Deuterium, Oxygen, and Nitrogen in the Local Interstellar Medium: Overview of First Results from the *FUSE* Mission.

See LEMOINE, M., et al. Deuterium Abundance toward G191-B2B: Results from the *FUSE* Mission.

See HEBRARD, G., et al. Deuterium Abundance toward WD 2211−495: Results from the *FUSE* Mission.

BLAIR, WILLIAM P. Far Ultraviolet Spectroscopic Explorer and Hopkins Ultraviolet Telescope Observations of Radiative Shocks in the Cygnus Loop. *William P. Blair, Ravi Sankrit, & Sean Tulin.* 140, 367 (2002)

BOHRINGER, H. See CRUDDACE, R., et al. The *ROSAT* All-Sky Survey: A Catalog of Clusters of Galaxies in a Region of 1 Steradian around the South Galactic Pole.

BRADLEY, S. See MILLER, A., et al. The QMAP and MAT/TOCO Experiments for Measuring Anistropy in the Cosmic Microwave Background.

BRASSARD, P. Adiabatic Survey of Subdwarf B Star Oscillations. III. Effects of Extreme Horizontal Branch Stellar Evolution on Pulsation Modes. *S. Charpinet, G. Fontaine, P. Brassard, & Ben Dorman.* 140, 469 (2002)

BROWN, G. V. Laboratory Measurements and Identification of the Fe XVIII–XXIV L-Shell X-Ray Line Emission. *G. V. Brown, P. Beiersdorfer, D. A. Liedahl, K. Widmann, S. M. Kahn, & E. J. Clothiaux.* 140, 589 (2002)

CALDWELL, R. See MILLER, A., et al. The QMAP and MAT/TOCO Experiments for Measuring Anistropy in the Cosmic Microwave Background.

CALZETTI, DANIELA. Global Far-Ultraviolet (912–1800 Å) Properties of Star-Forming Galaxies. *Claus Leitherer, I-Hui Li, Daniela Calzetti, & Timothy M. Heckman.* 140, 303 (2002)

CHAPMAN, H. See MILLER, A., et al. The QMAP and MAT/TOCO Experiments for Measuring Anistropy in the Cosmic Microwave Background.

CHARPINET, S. Adiabatic Survey of Subdwarf B Star Oscillations. III. Effects of Extreme Horizontal Branch Stellar Evolution on Pulsation Modes. *S. Charpinet, G. Fontaine, P. Brassard, & Ben Dorman.* 140, 469 (2002)

CHAYER, P. See MOOS, H. W., et al. Abundances of Deuterium, Oxygen, and Nitrogen in the Local Interstellar Medium: Overview of First Results from the *FUSE* Mission.

See KRUK, J. W., et al. Interstellar Deuterium, Nitrogen, and Oxygen toward HZ 43A: Results from the *FUSE* Mission.

See FRIEDMAN, S. D., et al. Deuterium and Oxygen toward Feige 110: Results from the *FUSE* Mission.

See LEMOINE, M., et al. Deuterium Abundance toward G191-B2B: Results from the *FUSE* Mission.

Deuterium Abundance toward WD 0621−376: Results from the *FUSE* Mission. *N. Lehner, C. Gry, K. R. Sembach, G. Hebrard, P. Chayer, H. W. Moos, J. C. Howk, & J.-M. Desert.* 140, 81 (2002)

See HEBRARD, G., et al. Deuterium Abundance toward WD 2211−495: Results from the *FUSE* Mission.

CHAYER, PIERRE. See SONNEBORN, GEORGE, et al. Interstellar Deuterium, Nitrogen, and Oxygen Abundances toward BD +28°4211: Results from the *FUSE* Mission.

CLOTHIAUX, E. J. Laboratory Measurements and Identification of the Fe XVIII–XXIV L-Shell X-Ray Line Emission. *G. V. Brown, P. Beiersdorfer, D. A. Liedahl, K. Widmann, S. M. Kahn, & E. J. Clothiaux.* 140, 589 (2002)

COLLINS, C. A. See CRUDDACE, R., et al. The *ROSAT* All-Sky Survey: A Catalog of Clusters of Galaxies in a Region of 1 Steradian around the South Galactic Pole.

CRUDDACE, R. The *ROSAT* All-Sky Survey: A Catalog of Clusters of Galaxies in a Region of 1 Steradian around the South Galactic Pole. *R. Cruddace, W. Voges, H. Bohringer, C. A. Collins, A. K. Romer, H. MacGillivray, D. Yentis, P. Schuecker, H. Ebeling, & S. De Grandi.* 140, 239 (2002)

DANKS, ANTHONY C. Space Telescope Imaging Spectrograph Observations of High-Velocity Interstellar Absorption-Line Profiles in the Carina Nebula. *Nolan R. Walborn, Anthony C. Danks, Gladys Vieira, & Wayne B. Landsman.* 140, 407 (2002)

DAVIS, S. S. A Note on Conservation Laws for Keplerian Flows. *S. S. Davis.* 140, 581 (2002)

DE GRANDI, S. See CRUDDACE, R., et al. The *ROSAT* All-Sky Survey: A Catalog of Clusters of Galaxies in a Region of 1 Steradian around the South Galactic Pole.

DESERT, J.-M. See LEMOINE, M., et al. Deuterium Abundance toward G191-B2B: Results from the *FUSE* Mission.

Deuterium Abundance toward WD 0621−376: Results from the *FUSE* Mission. *N. Lehner, C. Gry, K. R. Sembach, G. Hebrard, P. Chayer, H. W. Moos, J. C. Howk, & J.-M. Desert.* 140, 81 (2002)

See HEBRARD, G., et al. Deuterium Abundance toward WD 2211−495: Results from the *FUSE* Mission.

DEVLIN, M. J. See MILLER, A., et al. The QMAP and MAT/TOCO Experiments for Measuring Anistropy in the Cosmic Microwave Background.

DOBRZYCKA, DANUTA. A Uniform Analysis of the Lyα Forest at $z = 0$–5. III. *Hubble Space Telescope* Faint Object Spectograph Spectral Atlas. *Jill Bechtold, Adam Dobrzycki, Brenda Wilden, Miwa Morita, Jennifer Scott, Danuta Dobrzycka, Kim-Vy Tran, & Thomas L. Aldcroft.* 140, 143 (2002)

DOBRZYCKI, ADAM. A Uniform Analysis of the Lyα Forest at $z = 0$–5. III. *Hubble Space Telescope* Faint Object Spectograph Spectral Atlas. *Jill*

Bechtold, Adam Dobrzycki, Brenda Wilden, Miwa Morita, Jennifer Scott, Danuta Dobrzycka, Kim-Vy Tran, & Thomas L. Aldcroft. 140, 143 (2002)

DORMAN, BEN. Adiabatic Survey of Subdwarf B Star Oscillations. III. Effects of Extreme Horizontal Branch Stellar Evolution on Pulsation Modes. *S. Charpinet, G. Fontaine, P. Brassard, & Ben Dorman.* 140, 469 (2002)

DORWART, W. B. See MILLER, A., et al. The QMAP and MAT/TOCO Experiments for Measuring Anistropy in the Cosmic Microwave Background.

DUPREE, A. K. See MOOS, H. W., et al. Abundances of Deuterium, Oxygen, and Nitrogen in the Local Interstellar Medium: Overview of First Results from the *FUSE* Mission.

EBELING, H. See CRUDDACE, R., et al. The *ROSAT* All-Sky Survey: A Catalog of Clusters of Galaxies in a Region of 1 Steradian around the South Galactic Pole.

EBELING, HARALD. The WARPS Survey. VI. Galaxy Cluster and Source Identifications from Phase I. *Eric S. Perlman, Donald J. Horner, Laurence R. Jones, Caleb A. Scharf, Harald Ebeling, Gary Wegner, & Matthew Malkan.* 140, 265 (2002)

FELDMAN, P. D. See MOOS, H. W., et al. Abundances of Deuterium, Oxygen, and Nitrogen in the Local Interstellar Medium: Overview of First Results from the *FUSE* Mission.

FERLET, R. See MOOS, H. W., et al. Abundances of Deuterium, Oxygen, and Nitrogen in the Local Interstellar Medium: Overview of First Results from the *FUSE* Mission.

See KRUK, J. W., et al. Interstellar Deuterium, Nitrogen, and Oxygen toward HZ 43A: Results from the *FUSE* Mission.

See LEMOINE, M., et al. Deuterium Abundance toward G191-B2B: Results from the *FUSE* Mission.

See HEBRARD, G., et al. Deuterium Abundance toward WD 2211−495: Results from the *FUSE* Mission.

FONTAINE, G. Adiabatic Survey of Subdwarf B Star Oscillations. III. Effects of Extreme Horizontal Branch Stellar Evolution on Pulsation Modes. *S. Charpinet, G. Fontaine, P. Brassard, & Ben Dorman.* 140, 469 (2002)

FRIEDMAN, S. D. See MOOS, H. W., et al. Abundances of Deuterium, Oxygen, and Nitrogen in the Local Interstellar Medium: Overview of First Results from the *FUSE* Mission.

Deuterium and Oxygen toward Feige 110: Results from the *FUSE* Mission. *S. D. Friedman, J. C. Howk, P. Chayer, T. M. Tripp, G. Hebrard, M. Andre, C. Oliveira, E. B. Jenkins, H. W. Moos, W. R. Oegerle, G. Sonneborn, R. Lamontagne, K. R. Sembach, & A. Vidal-Madjar.* 140, 37 (2002)

See LEMOINE, M., et al. Deuterium Abundance toward G191-B2B: Results from the *FUSE* Mission.

See HEBRARD, G., et al. Deuterium Abundance toward WD 2211−495: Results from the *FUSE* Mission.

FRIEDMAN, SCOTT D. See SONNEBORN, GEORGE, et al. Interstellar Deuterium, Nitrogen, and Oxygen Abundances toward BD +28°4211: Results from the *FUSE* Mission.

GREEN, J. C. See MOOS, H. W., et al. Abundances of Deuterium, Oxygen, and Nitrogen in the Local Interstellar Medium: Overview of First Results from the *FUSE* Mission.

GRY, C. See MOOS, H. W., et al. Abundances of Deuterium, Oxygen, and Nitrogen in the Local Interstellar Medium: Overview of First Results from the *FUSE* Mission.

Deuterium Abundance toward WD 0621−376: Results from the *FUSE* Mission. *N. Lehner, C. Gry, K. R. Sembach, G. Hebrard, P. Chayer, H. W. Moos, J. C. Howk, & J.-M. Desert.* 140, 81 (2002)

HEBRARD, G. See MOOS, H. W., et al. Abundances of Deuterium, Oxygen, and Nitrogen in the Local Interstellar Medium: Overview of First Results from the *FUSE* Mission.

See KRUK, J. W., et al. Interstellar Deuterium, Nitrogen, and Oxygen toward HZ 43A: Results from the *FUSE* Mission.

See FRIEDMAN, S. D., et al. Deuterium and Oxygen toward Feige 110: Results from the *FUSE* Mission.

See LEMOINE, M., et al. Deuterium Abundance toward G191-B2B: Results from the *FUSE* Mission.

Deuterium Abundance toward WD 0621−376: Results from the *FUSE* Mission. *N. Lehner, C. Gry, K. R. Sembach, G. Hebrard, P. Chayer, H. W. Moos, J. C. Howk, & J.-M. Desert.* 140, 81 (2002)

Deuterium Abundance toward WD 1634−573: Results from the *FUSE* Mission. *B. E. Wood, J. L. Linsky, G. Hebrard, A. Vidal-Madjar, M. Lemoine, H. W. Moos, K. R. Sembach, & E. B. Jenkins.* 140, 91 (2002)

Deuterium Abundance toward WD 2211−495: Results from the *FUSE* Mission. *G. Hebrard, M. Lemoine, A. Vidal-Madjar, J.-M. Desert, A. Lecavelier des Etangs, R. Ferlet, B. E. Wood, J. L. Linsky, J. W. Kruk, P. Chayer, S. Lacour, W. P. Blair, S. D. Friedman, H. W. Moos, K. R. Sembach, G. Sonneborn, W. R. Oegerle, & E. B. Jenkins.* 140, 103 (2002)

HEBRARD, GUILLAUME. See SONNEBORN, GEORGE, et al. Interstellar Deuterium, Nitrogen, and Oxygen Abundances toward BD +28°4211: Results from the *FUSE* Mission.

HECKMAN, TIMOTHY M. Global Far-Ultraviolet (912–1800 Å) Properties of Star-Forming Galaxies. *Claus Leitherer, I-Hui Li, Daniela Calzetti, & Timothy M. Heckman.* 140, 303 (2002)

HEINRICHSEN, INGOLF. See TUFFS, RICHARD J., et al. Erratum: Far-Infrared Photometry of a Statistical Sample of Late-Type Virgo Cluster Galaxies, [ApJS March, v139n1].

HERBIG, T. See MILLER, A., et al. The QMAP and MAT/TOCO Experiments for Measuring Anistropy in the Cosmic Microwave Background.

HIPPELEIN, HANS. See TUFFS, RICHARD J., et al. Erratum: Far-Infrared Photometry of a Statistical Sample of Late-Type Virgo Cluster Galaxies, [ApJS March, v139n1].

HORNER, DONALD J. The WARPS Survey. VI. Galaxy Cluster and Source Identifications from Phase I. *Eric S. Perlman, Donald J. Horner, Laurence R. Jones, Caleb A. Scharf, Harald Ebeling, Gary Wegner, & Matthew Malkan.* 140, 265 (2002)

HOWK, J. C. See MOOS, H. W., et al. Abundances of Deuterium, Oxygen, and Nitrogen in the Local Interstellar Medium: Overview of First Results from the *FUSE* Mission.

See KRUK, J. W., et al. Interstellar Deuterium, Nitrogen, and Oxygen toward HZ 43A: Results from the *FUSE* Mission.

See FRIEDMAN, S. D., et al. Deuterium and Oxygen toward Feige 110: Results from the *FUSE* Mission.

See LEMOINE, M., et al. Deuterium Abundance toward G191-B2B: Results from the *FUSE* Mission.

Deuterium Abundance toward WD 0621−376: Results from the *FUSE* Mission. *N. Lehner, C. Gry, K. R. Sembach, G. Hebrard, P. Chayer, H. W. Moos, J. C. Howk, & J.-M. Desert.* 140, 81 (2002)

HOWK, J. CHRISTOPHER. See SONNEBORN, GEORGE, et al. Interstellar Deuterium, Nitrogen, and Oxygen Abundances toward BD +28°4211: Results from the *FUSE* Mission.

HUA, XIN-MIN. Angular and Energy Dependent Neutron Emission from Solar Flare Magnetic Loops. *Xin-Min Hua, Benzion Kozlovsky, Richard E. Lingenfelter, Reuven Ramaty, & Amnon Stupp.* 140, 563 (2002)

HUTCHINGS, J. B. See MOOS, H. W., et al. Abundances of Deuterium, Oxygen, and Nitrogen in the Local Interstellar Medium: Overview of First Results from the *FUSE* Mission.

JENKINS, E. B. See MOOS, H. W., et al. Abundances of Deuterium, Oxygen, and Nitrogen in the Local Interstellar Medium: Overview of First Results from the *FUSE* Mission.

See FRIEDMAN, S. D., et al. Deuterium and Oxygen toward Feige 110: Results from the *FUSE* Mission.

See LEMOINE, M., et al. Deuterium Abundance toward G191-B2B: Results from the *FUSE* Mission.

Deuterium Abundance toward WD 1634−573: Results from the *FUSE* Mission. *B. E. Wood, J. L. Linsky, G. Hebrard, A. Vidal-Madjar, M. Lemoine, H. W. Moos, K. R. Sembach, & E. B. Jenkins.* 140, 91 (2002)

See HEBRARD, G., et al. Deuterium Abundance toward WD 2211−495: Results from the *FUSE* Mission.

JENKINS, EDWARD B. See SONNEBORN, GEORGE, et al. Interstellar Deuterium, Nitrogen, and Oxygen Abundances toward BD +28°4211: Results from the *FUSE* Mission.

JONES, D. See MILLER, A., et al. The QMAP and MAT/TOCO Experiments for Measuring Anistropy in the Cosmic Microwave Background.

JONES, LAURENCE R. The WARPS Survey. VI. Galaxy Cluster and Source Identifications from Phase I. *Eric S. Perlman, Donald J. Horner, Laurence R. Jones, Caleb A. Scharf, Harald Ebeling, Gary Wegner, & Matthew Malkan.* 140, 265 (2002)

KAHN, S. M. Laboratory Measurements and Identification of the Fe XVIII–XXIV L-Shell X-Ray Line Emission. *G. V. Brown, P. Beiersdorfer, D. A. Liedahl, K. Widmann, S. M. Kahn, & E. J. Clothiaux.* 140, 589 (2002)

KENNICUTT, ROBERT. Special Issue: First Results from *FUSE* on the Galactic Deuterium Abundance and a New Opportunity for Publishing the Results from Large Projects. *Robert Kennicutt.* 140, 1 (2002)

KHANNA, R. K. Molecular Structure and Infrared Spectrum of Solid Amino Formate (HCO_2NH_2): Relevance to Interstellar Ices. *R. K. Khanna, M. S. Lowenthal, H. L. Ammon, & M. H. Moore.* 140, 457 (2002)

KOESTER, D. See LEMOINE, M., et al. Deuterium Abundance toward G191-B2B: Results from the *FUSE* Mission.

KOZLOVSKY, BENZION. Angular and Energy Dependent Neutron Emission from Solar Flare Magnetic Loops. *Xin-Min Hua, Benzion Kozlovsky, Richard E. Lingenfelter, Reuven Ramaty, & Amnon Stupp.* 140, 563 (2002)

KRAEMER, KATHLEEN E. Classification of the 2.4–45.2 μm Spectra from the *Infrared Space Observatory* Short Wavelength Spectrometer. *Kathleen E. Kraemer, G. C. Sloan, Stephan D. Price, & Helen J. Walker.* 140, 389 (2002)

KRUK, J. W. See MOOS, H. W., et al. Abundances of Deuterium, Oxygen, and Nitrogen in the Local Interstellar Medium: Overview of First Results from the *FUSE* Mission.

Interstellar Deuterium, Nitrogen, and Oxygen toward HZ 43A: Results from the *FUSE* Mission. *J. W. Kruk, J. C. Howk, M. Andre, H. W. Moos, W. R. Oegerle, C. Oliveira, K. R. Sembach, P. Chayer, J. L. Linsky, B. E. Wood, R. Ferlet, G. Hebrard, M. Lemoine, A. Vidal-Madjar, & G. Sonneborn.* 140, 19 (2002)

See LEMOINE, M., et al. Deuterium Abundance toward G191-B2B: Results from the *FUSE* Mission.

See HEBRARD, G., et al. Deuterium Abundance toward WD 2211−495: Results from the *FUSE* Mission.

SUBJECT INDEX

VOLUME 140

2002 MAY TO JUNE

ASTROCHEMISTRY

Molecular Structure and Infrared Spectrum of Solid Amino Formate (HCO_2NH_2): Relevance to Interstellar Ices. *R. K. Khanna, M. S. Lowenthal, H. L. Ammon, & M. H. Moore.* 140, 457 (2002)

ATLASES

Global Far-Ultraviolet (912–1800 Å) Properties of Star-Forming Galaxies. *Claus Leitherer, I-Hui Li, Daniela Calzetti, & Timothy M. Heckman.* 140, 303 (2002)

ATOMIC DATA

Laboratory Measurements and Identification of the Fe XVIII–XXIV L-Shell X-Ray Line Emission. *G. V. Brown, P. Beiersdorfer, D. A. Liedahl, K. Widmann, S. M. Kahn, & E. J. Clothiaux.* 140, 589 (2002)

CATALOGS

The *ROSAT* All-Sky Survey: A Catalog of Clusters of Galaxies in a Region of 1 Steradian around the South Galactic Pole. *R. Cruddace, W. Voges, H. Bohringer, C. A. Collins, A. K. Romer, H. MacGillivray, D. Yentis, P. Schuecker, H. Ebeling, & S. De Grandi.* 140, 239 (2002)

Classification of the 2.4–45.2 μm Spectra from the *Infrared Space Observatory* Short Wavelength Spectrometer. *Kathleen E. Kraemer, G. C. Sloan, Stephan D. Price, & Helen J. Walker.* 140, 389 (2002)

COSMOLOGY: COSMIC MICROWAVE BACKGROUND

The QMAP and MAT/TOCO Experiments for Measuring Anistropy in the Cosmic Microwave Background. *A. Miller, J. Beach, S. Bradley, R. Caldwell, H. Chapman, M. J. Devlin, W. B. Dorwart, T. Herbig, D. Jones, G. Monnelly, C. B. Netterfield, M. Nolta, L. A. Page, J. Puchalla, T. Robertson, E. Torbet, H. T. Tran, & W. E. Vinje.* 140, 115 (2002)

COSMOLOGY: OBSERVATIONS

Abundances of Deuterium, Oxygen, and Nitrogen in the Local Interstellar Medium: Overview of First Results from the *FUSE* Mission. *H. W. Moos, K. R. Sembach, A. Vidal-Madjar, D. G. York, S. D. Friedman, G. Hebrard, J. W. Kruk, N. Lehner, M. Lemoine, G. Sonneborn, B. E. Wood, T. B. Ake, M. Andre, W. P. Blair, P. Chayer, C. Gry, A. K. Dupree, R. Ferlet, P. D. Feldman, J. C. Green, J. C. Howk, J. B. Hutchings, E. B. Jenkins, J. L. Linsky, E. M. Murphy, W. R. Oegerle, C. Oliveira, K. Roth, D. J. Sahnow, B. D. Savage, J. M. Shull, T. M. Tripp, E. J. Weiler, B. Y. Welsh, E. Wilkinson, & B. E. Woodgate.* 140, 3 (2002)

Deuterium and Oxygen toward Feige 110: Results from the *FUSE* Mission. *S. D. Friedman, J. C. Howk, P. Chayer, T. M. Tripp, G. Hebrard, M. Andre, C. Oliveira, E. B. Jenkins, H. W. Moos, W. R. Oegerle, G. Sonneborn, R. Lamontagne, K. R. Sembach, & A. Vidal-Madjar.* 140, 37 (2002)

Interstellar Deuterium, Nitrogen, and Oxygen Abundances toward BD +28°4211: Results from the *FUSE* Mission. *George Sonneborn, Martial Andre, Cristina Oliveira, Guillaume Hebrard, J. Christopher Howk, Todd M. Tripp, Pierre Chayer, Scott D. Friedman, Jeffrey W. Kruk, Edward B. Jenkins, Martin Lemoine, H. Warren Moos, William R. Oegerle, Kenneth R. Sembach, & Alfred Vidal-Madjar.* 140, 51 (2002)

Deuterium Abundance toward WD 2211−495: Results from the *FUSE* Mission. *G. Hebrard, M. Lemoine, A. Vidal-Madjar, J.-M. Desert, A. Lecavelier des Etangs, R. Ferlet, B. E. Wood, J. L. Linsky, J. W. Kruk, P. Chayer, S. Lacour, W. P. Blair, S. D. Friedman, H. W. Moos, K. R. Sembach, G. Sonneborn, W. R. Oegerle, & E. B. Jenkins.* 140, 103 (2002)

EDITORIALS, NOTICES

Special Issue: First Results from *FUSE* on the Galactic Deuterium Abundance and a New Opportunity for Publishing the Resutls from Large Projects. *Robert Kennicutt.* 140, 1 (2002)

ELEMENTARY PARTICLES

Angular and Energy Dependent Neutron Emission from Solar Flare Magnetic Loops. *Xin-Min Hua, Benzion Kozlovsky, Richard E. Lingenfelter, Reuven Ramaty, & Amnon Stupp.* 140, 563 (2002)

ERRATA, ADDENDA

Erratum: Far-Infrared Photometry of a Statistical Sample of Late-Type Virgo Cluster Galaxies, [ApJS March, v139n1]. *Richard J. Tuffs, Christina C. Popescu, Daniele Pierini, Heinrich J. Voelk, Hans Hippelein, Kieron Leech, Leo Metcalfe, Ingolf Heinrichsen, & Cong Xu.* 140, 609 (2002) (Orig. paper in 139, 37 (2002))

GALAXIES: CLUSTERS: GENERAL

The *ROSAT* All-Sky Survey: A Catalog of Clusters of Galaxies in a Region of 1 Steradian around the South Galactic Pole. *R. Cruddace, W. Voges, H. Bohringer, C. A. Collins, A. K. Romer, H. MacGillivray, D. Yentis, P. Schuecker, H. Ebeling, & S. De Grandi.* 140, 239 (2002)

GALAXIES: INTERGALACTIC MEDIUM

A Uniform Analysis of the Lyα Forest at $z = 0$–5. III. *Hubble Space Telescope* Faint Object Spectograph Spectral Atlas. *Jill Bechtold, Adam Dobrzycki, Brenda Wilden, Miwa Morita, Jennifer Scott, Danuta Dobrzycka, Kim-Vy Tran, & Thomas L. Aldcroft.* 140, 143 (2002)

GALAXIES: ISM

Global Far-Ultraviolet (912–1800 Å) Properties of Star-Forming Galaxies. *Claus Leitherer, I-Hui Li, Daniela Calzetti, & Timothy M. Heckman.* 140, 303 (2002)

GALAXIES: QUASARS: ABSORPTION LINES

A Uniform Analysis of the Lyα Forest at $z = 0$–5. III. *Hubble Space Telescope* Faint Object Spectograph Spectral Atlas. *Jill Bechtold, Adam Dobrzycki, Brenda Wilden, Miwa Morita, Jennifer Scott, Danuta Dobrzycka, Kim-Vy Tran, & Thomas L. Aldcroft.* 140, 143 (2002)

GALAXIES: STARBURST

Global Far-Ultraviolet (912–1800 Å) Properties of Star-Forming Galaxies. *Claus Leitherer, I-Hui Li, Daniela Calzetti, & Timothy M. Heckman.* 140, 303 (2002)

GALAXIES: STELLAR CONTENT

Global Far-Ultraviolet (912–1800 Å) Properties of Star-Forming Galaxies. *Claus Leitherer, I-Hui Li, Daniela Calzetti, & Timothy M. Heckman.* 140, 303 (2002)

GALAXY: ABUNDANCES

Abundances of Deuterium, Oxygen, and Nitrogen in the Local Interstellar Medium: Overview of First Results from the *FUSE* Mission. *H. W. Moos, K. R. Sembach, A. Vidal-Madjar, D. G. York, S. D. Friedman, G. Hebrard, J. W. Kruk, N. Lehner, M. Lemoine, G. Sonneborn, B. E. Wood, T. B. Ake, M. Andre, W. P. Blair, P. Chayer, C. Gry, A. K. Dupree, R. Ferlet, P. D. Feldman, J. C. Green, J. C. Howk, J. B. Hutchings, E. B. Jenkins, J. L. Linsky, E. M. Murphy, W. R. Oegerle, C. Oliveira, K. Roth, D. J. Sahnow, B. D. Savage, J. M. Shull, T. M. Tripp, E. J. Weiler, B. Y. Welsh, E. Wilkinson, & B. E. Woodgate.* 140, 3 (2002)

GALAXY: HALO

A Very Sensitive 21 Centimeter Survey for Galactic High-Velocity H I. *Felix J. Lockman, Edward M. Murphy, Sara Petty-Powell, & Vincent J. Urick.* 140, 331 (2002)

GALAXY: STRUCTURE

A Very Sensitive 21 Centimeter Survey for Galactic High-Velocity H I. *Felix J. Lockman, Edward M. Murphy, Sara Petty-Powell, & Vincent J. Urick.* 140, 331 (2002)

GAMMA RAYS: THEORY

Angular and Energy Dependent Neutron Emission from Solar Flare Magnetic Loops. *Xin-Min Hua, Benzion Kozlovsky, Richard E. Lingenfelter, Reuven Ramaty, & Amnon Stupp.* 140, 563 (2002)

HYDRODYNAMICS

A Note on Conservation Laws for Keplerian Flows. *S. S. Davis.* 140, 581 (2002)

INFRARED: ISM

Classification of the 2.4–45.2 μm Spectra from the *Infrared Space Observatory* Short Wavelength Spectrometer. *Kathleen E. Kraemer, G. C. Sloan, Stephan D. Price, & Helen J. Walker.* 140, 389 (2002)

Molecular Structure and Infrared Spectrum of Solid Amino Formate (HCO_2NH_2): Relevance to Interstellar Ices. *R. K. Khanna, M. S. Lowenthal, H. L. Ammon, & M. H. Moore.* 140, 457 (2002)

INFRARED: STARS

Classification of the 2.4–45.2 μm Spectra from the *Infrared Space Observatory* Short Wavelength Spectrometer. *Kathleen E. Kraemer, G. C. Sloan, Stephan D. Price, & Helen J. Walker.* 140, 389 (2002)

INSTRUMENTATION: MISCELLANEOUS

The QMAP and MAT/TOCO Experiments for Measuring Anistropy in the Cosmic Microwave Background. *A. Miller, J. Beach, S. Bradley, R. Caldwell, H. Chapman, M. J. Devlin, W. B. Dorwart, T. Herbig, D. Jones, G. Monnelly, C. B. Netterfield, M. Nolta, L. A. Page, J. Puchalla, T. Robertson, E. Torbet, H. T. Tran, & W. E. Vinje.* 140, 115 (2002)

ISM: ABUNDANCES

Abundances of Deuterium, Oxygen, and Nitrogen in the Local Interstellar Medium: Overview of First Results from the *FUSE* Mission. *H. W. Moos, K. R. Sembach, A. Vidal-Madjar, D. G. York, S. D. Friedman, G. Hebrard, J. W. Kruk, N. Lehner, M. Lemoine, G. Sonneborn, B. E. Wood, T. B. Ake, M. Andre, W. P. Blair, P. Chayer, C. Gry, A. K. Dupree, R. Ferlet, P. D. Feldman, J. C. Green, J. C. Howk, J. B. Hutchings, E. B. Jenkins, J. L. Linsky, E. M. Murphy, W. R. Oegerle, C. Oliveira, K. Roth, D. J. Sahnow, B. D. Savage, J. M. Shull, T. M. Tripp, E. J. Weiler, B. Y. Welsh, E. Wilkinson, & B. E. Woodgate.* 140, 3 (2002)

Interstellar Deuterium, Nitrogen, and Oxygen toward HZ 43A: Results from the *FUSE* Mission. *J. W. Kruk, J. C. Howk, M. Andre, H. W. Moos, W. R. Oegerle, C. Oliveira, K. R. Sembach, P. Chayer, J. L. Linsky, B. E. Wood, R. Ferlet, G. Hebrard, M. Lemoine, A. Vidal-Madjar, & G. Sonneborn.* 140, 19 (2002)

Deuterium and Oxygen toward Feige 110: Results from the *FUSE* Mission. *S. D. Friedman, J. C. Howk, P. Chayer, T. M. Tripp, G. Hebrard, M. Andre, C. Oliveira, E. B. Jenkins, H. W. Moos, W. R. Oegerle, G. Sonneborn, R. Lamontagne, K. R. Sembach, & A. Vidal-Madjar.* 140, 37 (2002)

Interstellar Deuterium, Nitrogen, and Oxygen Abundances toward BD +28°4211: Results from the *FUSE* Mission. *George Sonneborn, Martial Andre, Cristina Oliveira, Guillaume Hebrard, J. Christopher Howk, Todd M. Tripp, Pierre Chayer, Scott D. Friedman, Jeffrey W. Kruk, Edward B. Jenkins, Martin Lemoine, H. Warren Moos, William R. Oegerle, Kenneth R. Sembach, & Alfred Vidal-Madjar.* 140, 51 (2002)

Deuterium Abundance toward G191-B2B: Results from the *FUSE* Mission. *M. Lemoine, A. Vidal-Madjar, G. Hebrard, J.-M. Desert, R. Ferlet, A. Lecavelier des Etangs, J. C. Howk, M. Andre, W. P. Blair, S. D. Friedman, J. W. Kruk, S. Lacour, H. W. Moos, K. Sembach, P. Chayer, E. B. Jenkins, D. Koester, J. L. Linsky, B. E. Wood, W. R. Oegerle, G. Sonneborn, & D. G. York.* 140, 67 (2002)

Deuterium Abundance toward WD 0621−376: Results from the *FUSE* Mission. *N. Lehner, C. Gry, K. R. Sembach, G. Hebrard, P. Chayer, H. W. Moos, J. C. Howk, & J.-M. Desert.* 140, 81 (2002)

Deuterium Abundance toward WD 1634−573: Results from the *FUSE* Mission. *B. E. Wood, J. L. Linsky, G. Hebrard, A. Vidal-Madjar, M. Lemoine, H. W. Moos, K. R. Sembach, & E. B. Jenkins.* 140, 91 (2002)

Deuterium Abundance toward WD 2211−495: Results from the *FUSE* Mission. *G. Hebrard, M. Lemoine, A. Vidal-Madjar, J.-M. Desert, A. Lecavelier des Etangs, R. Ferlet, B. E. Wood, J. L. Linsky, J. W. Kruk, P. Chayer, S. Lacour, W. P. Blair, S. D. Friedman, H. W. Moos, K. R. Sembach, G. Sonneborn, W. R. Oegerle, & E. B. Jenkins.* 140, 103 (2002)

Space Telescope Imaging Spectrograph Observations of High-Velocity Interstellar Absorption-Line Profiles in the Carina Nebula. *Nolan R. Walborn, Anthony C. Danks, Gladys Vieira, & Wayne B. Landsman.* 140, 407 (2002)

ISM: CLOUDS

Interstellar Deuterium, Nitrogen, and Oxygen toward HZ 43A: Results from the *FUSE* Mission. *J. W. Kruk, J. C. Howk, M. Andre, H. W. Moos, W. R. Oegerle, C. Oliveira, K. R. Sembach, P. Chayer, J. L. Linsky, B. E. Wood, R. Ferlet, G. Hebrard, M. Lemoine, A. Vidal-Madjar, & G. Sonneborn.* 140, 19 (2002)

Deuterium and Oxygen toward Feige 110: Results from the *FUSE* Mission. *S. D. Friedman, J. C. Howk, P. Chayer, T. M. Tripp, G. Hebrard, M. Andre, C. Oliveira, E. B. Jenkins, H. W. Moos, W. R. Oegerle, G. Sonneborn, R. Lamontagne, K. R. Sembach, & A. Vidal-Madjar.* 140, 37 (2002)

Deuterium Abundance toward G191-B2B: Results from the *FUSE* Mission. *M. Lemoine, A. Vidal-Madjar, G. Hebrard, J.-M. Desert, R. Ferlet, A. Lecavelier des Etangs, J. C. Howk, M. Andre, W. P. Blair, S. D. Friedman, J. W. Kruk, S. Lacour, H. W. Moos, K. Sembach, P. Chayer, E. B. Jenkins, D. Koester, J. L. Linsky, B. E. Wood, W. R. Oegerle, G. Sonneborn, & D. G. York.* 140, 67 (2002)

Deuterium Abundance toward WD 0621−376: Results from the *FUSE* Mission. *N. Lehner, C. Gry, K. R. Sembach, G. Hebrard, P. Chayer, H. W. Moos, J. C. Howk, & J.-M. Desert.* 140, 81 (2002)

Deuterium Abundance toward WD 2211−495: Results from the *FUSE* Mission. *G. Hebrard, M. Lemoine, A. Vidal-Madjar, J.-M. Desert, A. Lecavelier des Etangs, R. Ferlet, B. E. Wood, J. L. Linsky, J. W. Kruk, P. Chayer, S. Lacour, W. P. Blair, S. D. Friedman, H. W. Moos, K. R. Sembach, G. Sonneborn, W. R. Oegerle, & E. B. Jenkins.* 140, 103 (2002)

A Very Sensitive 21 Centimeter Survey for Galactic High-Velocity H I. *Felix J. Lockman, Edward M. Murphy, Sara Petty-Powell, & Vincent J. Urick.* 140, 331 (2002)

Molecular Structure and Infrared Spectrum of Solid Amino Formate (HCO_2NH_2): Relevance to Interstellar Ices. *R. K. Khanna, M. S. Lowenthal, H. L. Ammon, & M. H. Moore.* 140, 457 (2002)

ISM: EVOLUTION

Abundances of Deuterium, Oxygen, and Nitrogen in the Local Interstellar Medium: Overview of First Results from the *FUSE* Mission. *H. W. Moos, K. R. Sembach, A. Vidal-Madjar, D. G. York, S. D. Friedman, G. Hebrard, J. W. Kruk, N. Lehner, M. Lemoine, G. Sonneborn, B. E. Wood, T. B. Ake, M. Andre, W. P. Blair, P. Chayer, C. Gry, A. K. Dupree, R. Ferlet, P. D. Feldman, J. C. Green, J. C. Howk, J. B. Hutchings, E. B. Jenkins, J. L. Linsky, E. M. Murphy, W. R. Oegerle, C. Oliveira, K. Roth, D. J. Sahnow, B. D. Savage, J. M. Shull, T. M. Tripp, E. J. Weiler, B. Y. Welsh, E. Wilkinson, & B. E. Woodgate.* 140, 3 (2002)

Interstellar Deuterium, Nitrogen, and Oxygen Abundances toward BD +28°4211: Results from the *FUSE* Mission. *George Sonneborn, Martial Andre, Cristina Oliveira, Guillaume Hebrard, J. Christopher Howk, Todd M. Tripp, Pierre Chayer, Scott D. Friedman, Jeffrey W. Kruk, Edward B. Jenkins, Martin Lemoine, H. Warren Moos, William R. Oegerle, Kenneth R. Sembach, & Alfred Vidal-Madjar.* 140, 51 (2002)

ISM: GENERAL

Classification of the 2.4–45.2 μm Spectra from the *Infrared Space Observatory* Short Wavelength Spectrometer. *Kathleen E. Kraemer, G. C. Sloan, Stephan D. Price, & Helen J. Walker.* 140, 389 (2002)

ISM: INDIVIDUAL

Name: Carina Nebula

Space Telescope Imaging Spectrograph Observations of High-Velocity Interstellar Absorption-Line Profiles in the Carina Nebula. *Nolan R. Walborn, Anthony C. Danks, Gladys Vieira, & Wayne B. Landsman.* 140, 407 (2002)

Name: Cygnus Loop

Far Ultraviolet Spectroscopic Explorer and Hopkins Ultraviolet Telescope Observations of Radiative Shocks in the Cygnus Loop. *William P. Blair, Ravi Sankrit, & Sean Tulin.* 140, 367 (2002)

ISM: KINEMATICS AND DYNAMICS

Space Telescope Imaging Spectrograph Observations of High-Velocity Interstellar Absorption-Line Profiles in the Carina Nebula. *Nolan R. Walborn, Anthony C. Danks, Gladys Vieira, & Wayne B. Landsman.* 140, 407 (2002)

ISM: LINES AND BANDS

Classification of the 2.4–45.2 μm Spectra from the *Infrared Space Observatory* Short Wavelength Spectrometer. *Kathleen E. Kraemer, G. C. Sloan, Stephan D. Price, & Helen J. Walker.* 140, 389 (2002)

Space Telescope Imaging Spectrograph Observations of High-Velocity Interstellar Absorption-Line Profiles in the Carina Nebula. *Nolan R. Walborn, Anthony C. Danks, Gladys Vieira, & Wayne B. Landsman.* 140, 407 (2002)

ISM: MOLECULES

Molecular Structure and Infrared Spectrum of Solid Amino Formate (HCO_2NH_2): Relevance to Interstellar Ices. *R. K. Khanna, M. S. Lowenthal, H. L. Ammon, & M. H. Moore.* 140, 457 (2002)

ISM: STRUCTURE

Deuterium Abundance toward WD 0621−376: Results from the *FUSE* Mission. *N. Lehner, C. Gry, K. R. Sembach, G. Hebrard, P. Chayer, H. W. Moos, J. C. Howk, & J.-M. Desert.* 140, 81 (2002)

Space Telescope Imaging Spectrograph Observations of High-Velocity Interstellar Absorption-Line Profiles in the Carina Nebula. *Nolan R.*

Walborn, Anthony C. Danks, Gladys Vieira, & Wayne B. Landsman. 140, 407 (2002)

ISM: SUPERNOVA REMNANTS

Far Ultraviolet Spectroscopic Explorer and Hopkins Ultraviolet Telescope Observations of Radiative Shocks in the Cygnus Loop. *William P. Blair, Ravi Sankrit, & Sean Tulin.* 140, 367 (2002)

LINE: IDENTIFICATION

Laboratory Measurements and Identification of the Fe XVIII–XXIV L-Shell X-Ray Line Emission. *G. V. Brown, P. Beiersdorfer, D. A. Liedahl, K. Widmann, S. M. Kahn, & E. J. Clothiaux.* 140, 589 (2002)

METHODS: ANALYTICAL

A Note on Conservation Laws for Keplerian Flows. *S. S. Davis.* 140, 581 (2002)

METHODS: DATA ANALYSIS

Molecular Structure and Infrared Spectrum of Solid Amino Formate (HCO_2NH_2): Relevance to Interstellar Ices. *R. K. Khanna, M. S. Lowenthal, H. L. Ammon, & M. H. Moore.* 140, 457 (2002)

METHODS: LABORATORY

Molecular Structure and Infrared Spectrum of Solid Amino Formate (HCO_2NH_2): Relevance to Interstellar Ices. *R. K. Khanna, M. S. Lowenthal, H. L. Ammon, & M. H. Moore.* 140, 457 (2002)

SHOCK WAVES

Far Ultraviolet Spectroscopic Explorer and Hopkins Ultraviolet Telescope Observations of Radiative Shocks in the Cygnus Loop. *William P. Blair, Ravi Sankrit, & Sean Tulin.* 140, 367 (2002)

STARS: CORONAE

Laboratory Measurements and Identification of the Fe XVIII–XXIV L-Shell X-Ray Line Emission. *G. V. Brown, P. Beiersdorfer, D. A. Liedahl, K. Widmann, S. M. Kahn, & E. J. Clothiaux.* 140, 589 (2002)

STARS: FUNDAMENTAL PARAMETERS

Classification of the 2.4–45.2 μm Spectra from the *Infrared Space Observatory* Short Wavelength Spectrometer. *Kathleen E. Kraemer, G. C. Sloan, Stephan D. Price, & Helen J. Walker.* 140, 389 (2002)

STARS: INDIVIDUAL

Name: Feige 110

Deuterium and Oxygen toward Feige 110: Results from the *FUSE* Mission. *S. D. Friedman, J. C. Howk, P. Chayer, T. M. Tripp, G. Hebrard, M. Andre, C. Oliveira, E. B. Jenkins, H. W. Moos, W. R. Oegerle, G. Sonneborn, R. Lamontagne, K. R. Sembach, & A. Vidal-Madjar.* 140, 37 (2002)

Alphanumeric: BD +28°4211

Interstellar Deuterium, Nitrogen, and Oxygen Abundances toward BD +28°4211: Results from the *FUSE* Mission. *George Sonneborn, Martial Andre, Cristina Oliveira, Guillaume Hebrard, J. Christopher Howk, Todd M. Tripp, Pierre Chayer, Scott D. Friedman, Jeffrey W. Kruk, Edward B. Jenkins, Martin Lemoine, H. Warren Moos, William R. Oegerle, Kenneth R. Sembach, & Alfred Vidal-Madjar.* 140, 51 (2002)

Alphanumeric: G191-B2B

Deuterium Abundance toward G191-B2B: Results from the *FUSE* Mission. *M. Lemoine, A. Vidal-Madjar, G. Hebrard, J.-M. Desert, R. Ferlet, A. Lecavelier des Etangs, J. C. Howk, M. Andre, W. P. Blair, S. D. Friedman, J. W. Kruk, S. Lacour, H. W. Moos, K. Sembach, P. Chayer, E. B. Jenkins, D. Koester, J. L. Linsky, B. E. Wood, W. R. Oegerle, G. Sonneborn, & D. G. York.* 140, 67 (2002)

Alphanumeric: HZ 43A

Interstellar Deuterium, Nitrogen, and Oxygen toward HZ 43A: Results from the *FUSE* Mission. *J. W. Kruk, J. C. Howk, M. Andre, H. W. Moos, W. R. Oegerle, C. Oliveira, K. R. Sembach, P. Chayer, J. L. Linsky, B. E. Wood, R. Ferlet, G. Hebrard, M. Lemoine, A. Vidal-Madjar, & G. Sonneborn.* 140, 19 (2002)

Alphanumeric: WD 0621−376

Deuterium Abundance toward WD 0621−376: Results from the *FUSE* Mission. *N. Lehner, C. Gry, K. R. Sembach, G. Hebrard, P. Chayer, H. W. Moos, J. C. Howk, & J.-M. Desert.* 140, 81 (2002)

Alphanumeric: WD 1634−573

Deuterium Abundance toward WD 1634−573: Results from the *FUSE* Mission. *B. E. Wood, J. L. Linsky, G. Hebrard, A. Vidal-Madjar, M. Lemoine, H. W. Moos, K. R. Sembach, & E. B. Jenkins.* 140, 91 (2002)

Alphanumeric: WD 2211−495

Deuterium Abundance toward WD 2211−495: Results from the *FUSE* Mission. *G. Hebrard, M. Lemoine, A. Vidal-Madjar, J.-M. Desert, A. Lecavelier des Etangs, R. Ferlet, B. E. Wood, J. L. Linsky, J. W. Kruk, P. Chayer, S. Lacour, W. P. Blair, S. D. Friedman, H. W. Moos, K. R. Sembach, G. Sonneborn, W. R. Oegerle, & E. B. Jenkins.* 140, 103 (2002)

STARS: INTERIORS

Adiabatic Survey of Subdwarf B Star Oscillations. III. Effects of Extreme Horizontal Branch Stellar Evolution on Pulsation Modes. *S. Charpinet, G. Fontaine, P. Brassard, & Ben Dorman.* 140, 469 (2002)

STARS: OSCILLATIONS

Adiabatic Survey of Subdwarf B Star Oscillations. III. Effects of Extreme Horizontal Branch Stellar Evolution on Pulsation Modes. *S. Charpinet, G. Fontaine, P. Brassard, & Ben Dorman.* 140, 469 (2002)

STARS: SUBDWARFS

Adiabatic Survey of Subdwarf B Star Oscillations. III. Effects of Extreme Horizontal Branch Stellar Evolution on Pulsation Modes. *S. Charpinet, G. Fontaine, P. Brassard, & Ben Dorman.* 140, 469 (2002)

STARS: VARIABLES: CEPHEIDS

Fundamental Parameters of Cepheids. V. Additional Photometry and Radial Velocity Data for Southern Cepheids. *D. Bersier.* 140, 465 (2002)

STARS: WHITE DWARFS

Interstellar Deuterium, Nitrogen, and Oxygen toward HZ 43A: Results from the *FUSE* Mission. *J. W. Kruk, J. C. Howk, M. Andre, H. W. Moos, W. R. Oegerle, C. Oliveira, K. R. Sembach, P. Chayer, J. L. Linsky, B. E. Wood, R. Ferlet, G. Hebrard, M. Lemoine, A. Vidal-Madjar, & G. Sonneborn.* 140, 19 (2002)

Deuterium Abundance toward WD 0621−376: Results from the *FUSE* Mission. *N. Lehner, C. Gry, K. R. Sembach, G. Hebrard, P. Chayer, H. W. Moos, J. C. Howk, & J.-M. Desert.* 140, 81 (2002)

Deuterium Abundance toward WD 1634−573: Results from the *FUSE* Mission. *B. E. Wood, J. L. Linsky, G. Hebrard, A. Vidal-Madjar, M. Lemoine, H. W. Moos, K. R. Sembach, & E. B. Jenkins.* 140, 91 (2002)

Deuterium Abundance toward WD 2211−495: Results from the *FUSE* Mission. *G. Hebrard, M. Lemoine, A. Vidal-Madjar, J.-M. Desert, A. Lecavelier des Etangs, R. Ferlet, B. E. Wood, J. L. Linsky, J. W. Kruk, P. Chayer, S. Lacour, W. P. Blair, S. D. Friedman, H. W. Moos, K. R. Sembach, G. Sonneborn, W. R. Oegerle, & E. B. Jenkins.* 140, 103 (2002)

SUN: CORONA

Laboratory Measurements and Identification of the Fe XVIII–XXIV L-Shell X-Ray Line Emission. *G. V. Brown, P. Beiersdorfer, D. A. Liedahl, K. Widmann, S. M. Kahn, & E. J. Clothiaux.* 140, 589 (2002)

SUN: FLARES

Angular and Energy Dependent Neutron Emission from Solar Flare Magnetic Loops. *Xin-Min Hua, Benzion Kozlovsky, Richard E. Lingenfelter, Reuven Ramaty, & Amnon Stupp.* 140, 563 (2002)

SUN: X-RAYS, GAMMA RAYS

Laboratory Measurements and Identification of the Fe XVIII–XXIV L-Shell X-Ray Line Emission. *G. V. Brown, P. Beiersdorfer, D. A. Liedahl, K. Widmann, S. M. Kahn, & E. J. Clothiaux.* 140, 589 (2002)

SURVEYS

The WARPS Survey. VI. Galaxy Cluster and Source Identifications from Phase I. *Eric S. Perlman, Donald J. Horner, Laurence R. Jones, Caleb A. Scharf, Harald Ebeling, Gary Wegner, & Matthew Malkan.* 140, 265 (2002)

A Very Sensitive 21 Centimeter Survey for Galactic High-Velocity H I. *Felix J. Lockman, Edward M. Murphy, Sara Petty-Powell, & Vincent J. Urick.* 140, 331 (2002)

TECHNIQUES: PHOTOMETRIC

Fundamental Parameters of Cepheids. V. Additional Photometry and Radial Velocity Data for Southern Cepheids. *D. Bersier.* 140, 465 (2002)

TECHNIQUES: RADIAL VELOCITIES

Fundamental Parameters of Cepheids. V. Additional Photometry and Radial Velocity Data for Southern Cepheids. *D. Bersier.* 140, 465 (2002)

TECHNIQUES: SPECTROSCOPIC

Global Far-Ultraviolet (912–1800 Å) Properties of Star-Forming Galaxies. *Claus Leitherer, I-Hui Li, Daniela Calzetti, & Timothy M. Heckman.* 140, 303 (2002)

ULTRAVIOLET: GALAXIES

Global Far-Ultraviolet (912–1800 Å) Properties of Star-Forming Galaxies. *Claus Leitherer, I-Hui Li, Daniela Calzetti, & Timothy M. Heckman.* 140, 303 (2002)

ULTRAVIOLET: GENERAL

A Uniform Analysis of the Lyα Forest at $z = 0$–5. III. *Hubble Space Telescope* Faint Object Spectograph Spectral Atlas. *Jill Bechtold, Adam Dobrzycki, Brenda Wilden, Miwa Morita, Jennifer Scott, Danuta Dobrzycka, Kim-Vy Tran, & Thomas L. Aldcroft.* 140, 143 (2002)

ULTRAVIOLET: ISM

Abundances of Deuterium, Oxygen, and Nitrogen in the Local Interstellar Medium: Overview of First Results from the *FUSE* Mission. *H. W. Moos, K. R. Sembach, A. Vidal-Madjar, D. G. York, S. D. Friedman, G. Hebrard, J. W. Kruk, N. Lehner, M. Lemoine, G. Sonneborn, B. E. Wood, T. B. Ake, M. Andre, W. P. Blair, P. Chayer, C. Gry, A. K. Dupree, R. Ferlet, P. D. Feldman, J. C. Green, J. C. Howk, J. B. Hutchings, E. B. Jenkins, J. L. Linsky, E. M. Murphy, W. R. Oegerle, C. Oliveira, K. Roth, D. J. Sahnow, B. D. Savage, J. M. Shull, T. M. Tripp, E. J. Weiler, B. Y. Welsh, E. Wilkinson, & B. E. Woodgate.* 140, 3 (2002)

Deuterium and Oxygen toward Feige 110: Results from the *FUSE* Mission. *S. D. Friedman, J. C. Howk, P. Chayer, T. M. Tripp, G. Hebrard, M. Andre, C. Oliveira, E. B. Jenkins, H. W. Moos, W. R. Oegerle, G. Sonneborn, R. Lamontagne, K. R. Sembach, & A. Vidal-Madjar.* 140, 37 (2002)

Interstellar Deuterium, Nitrogen, and Oxygen Abundances toward BD +28°4211: Results from the *FUSE* Mission. *George Sonneborn, Martial Andre, Cristina Oliveira, Guillaume Hebrard, J. Christopher Howk, Todd M. Tripp, Pierre Chayer, Scott D. Friedman, Jeffrey W. Kruk, Edward B. Jenkins, Martin Lemoine, H. Warren Moos, William R. Oegerle, Kenneth R. Sembach, & Alfred Vidal-Madjar.* 140, 51 (2002)

Deuterium Abundance toward G191-B2B: Results from the *FUSE* Mission. *M. Lemoine, A. Vidal-Madjar, G. Hebrard, J.-M. Desert, R. Ferlet, A. Lecavelier des Etangs, J. C. Howk, M. Andre, W. P. Blair, S. D. Friedman, J. W. Kruk, S. Lacour, H. W. Moos, K. Sembach, P. Chayer, E. B. Jenkins, D. Koester, J. L. Linsky, B. E. Wood, W. R. Oegerle, G. Sonneborn, & D. G. York.* 140, 67 (2002)

Deuterium Abundance toward WD 0621−376: Results from the *FUSE* Mission. *N. Lehner, C. Gry, K. R. Sembach, G. Hebrard, P. Chayer, H. W. Moos, J. C. Howk, & J.-M. Desert.* 140, 81 (2002)

Deuterium Abundance toward WD 1634−573: Results from the *FUSE* Mission. *B. E. Wood, J. L. Linsky, G. Hebrard, A. Vidal-Madjar, M. Lemoine, H. W. Moos, K. R. Sembach, & E. B. Jenkins.* 140, 91 (2002)

Deuterium Abundance toward WD 2211−495: Results from the *FUSE* Mission. *G. Hebrard, M. Lemoine, A. Vidal-Madjar, J.-M. Desert, A. Lecavelier des Etangs, R. Ferlet, B. E. Wood, J. L. Linsky, J. W. Kruk, P. Chayer, S. Lacour, W. P. Blair, S. D. Friedman, H. W. Moos, K. R. Sembach, G. Sonneborn, W. R. Oegerle, & E. B. Jenkins.* 140, 103 (2002)

Far Ultraviolet Spectroscopic Explorer and Hopkins Ultraviolet Telescope Observations of Radiative Shocks in the Cygnus Loop. *William P. Blair, Ravi Sankrit, & Sean Tulin.* 140, 367 (2002)

Space Telescope Imaging Spectrograph Observations of High-Velocity Interstellar Absorption-Line Profiles in the Carina Nebula. *Nolan R. Walborn, Anthony C. Danks, Gladys Vieira, & Wayne B. Landsman.* 140, 407 (2002)

X-RAYS: GALAXIES: CLUSTERS

The *ROSAT* All-Sky Survey: A Catalog of Clusters of Galaxies in a Region of 1 Steradian around the South Galactic Pole. *R. Cruddace, W. Voges, H. Bohringer, C. A. Collins, A. K. Romer, H. MacGillivray, D. Yentis, P. Schuecker, H. Ebeling, & S. De Grandi.* 140, 239 (2002)

The WARPS Survey. VI. Galaxy Cluster and Source Identifications from Phase I. *Eric S. Perlman, Donald J. Horner, Laurence R. Jones, Caleb A. Scharf, Harald Ebeling, Gary Wegner, & Matthew Malkan.* 140, 265 (2002)

X-RAYS: GENERAL

The WARPS Survey. VI. Galaxy Cluster and Source Identifications from Phase I. *Eric S. Perlman, Donald J. Horner, Laurence R. Jones, Caleb A. Scharf, Harald Ebeling, Gary Wegner, & Matthew Malkan.* 140, 265 (2002)

Laboratory Measurements and Identification of the Fe XVIII–XXIV L-Shell X-Ray Line Emission. *G. V. Brown, P. Beiersdorfer, D. A. Liedahl, K. Widmann, S. M. Kahn, & E. J. Clothiaux.* 140, 589 (2002)
